About Me

Hello, My name is Amir Soleimani, born in 1995 and currently residing in Tehran. I have completed my military service and I am a bachelor's student in Software Engineering. I started my professional career in the .NET domain in 2021 and have experience working in both backend and frontend development. In addition to building servers and APIs, I have also worked as a database developer. My frontend experience is mostly with Blazor technology, and currently, I am involved in cross-platform software development (Android, iOS, Windows, and Mac) using MAUI and MAUI Hybrid technologies. I am also familiar with tools such as Figma, FastReport, Firebase, and Git. The main projects where I have played a significant role include: Modiyan Module Payroll Software CRM Software Task Manager Software Arian Tech ERP Software Telegram Bot The .NET technologies I have worked with, ranked by my proficiency, are: .NET MAUI .NET MAUI Hybrid WinForms Blazor Server App Blazor WebAssembly ASP
